 sivasuriyan1203

 Chennai, India

I specialize in Full Stack Development, building scalable and high-performance web applications. I have strong experience in Java, Spring Boot, and the MERN stack (MongoDB, Express.js, React.js, Node.js). I focus on developing robust backend systems and responsive frontend interfaces using modern development practices. My goal is to create impactful, future-ready products that solve real-world problems and deliver value at scale.

Experience

Full Stack Developer Intern

(Dec 2025 - Mar 2026)

Company: Technorucs Private Limited

Project: AI Powered Contract Risk Analysis Platform

- Developed a full-stack AI-powered platform for contract risk analysis and compliance checking
- Built backend services using Java Spring Boot and designed RESTful APIs for contract processing.
- Optimized database queries to improve application performance and response time.
- Developed responsive frontend interfaces using React.js for contract upload and analysis.

Projects

AI Powered Contract Risk Analysis Platform

Technologies: React.js, Node.js, Express.js, MongoDB, AI, NLP

- Developed an AI-powered web application to analyze legal contracts and automatically identify potential risks and non-compliant clauses.
- Built backend services using Node.js to process contract data and manage document workflows.
- Designed a responsive frontend using React.js for contract upload, clause visualization, and risk analysis reports.
- Generated context-aware AI responses using Large Language Models (LLMs) to improve contract analysis accuracy.
- Designed a scalable MongoDB database structure to store contracts, extracted clauses, and risk analysis results.

EduTruck – Learning Management System (LMS)

Technologies: Java, Spring Boot, React.js, MySQL

- Built an interactive frontend using React.js to provide a responsive and user-friendly learning interface.
- Enabled instructors to create courses, upload learning materials, and monitor student participation.
- Improved digital learning accessibility by providing a centralized platform for online education management.
- Developed a web-based Learning Management System (LMS) to help students access courses, study materials, and track their learning progress online.

Smart Healthcare Management System

Technologies: Node.js, Express.js, React.js, MongoDB

- Developed a full-stack healthcare management web application to digitize patient records, appointments, and medical history.
- Built RESTful backend APIs using Node.js and Express.js to manage patient data, doctor profiles, and appointment scheduling.
- Designed a responsive frontend using React.js to provide an intuitive dashboard for doctors and administrators.
- Implemented MongoDB database to securely store patient records, medical reports, and appointment details.

Education

DWARAKA DOSS GOVERDHAN DOSS VASIHNAV COLLEGE (2024 - 2026)

7.9 CGPA - Master of Computer Applications (MCA)

DWARAKA DOSS GOVERDHAN DOSS VASIHNAV COLLEGE (2021 – 2024)

7.5 CGPA – BSC Physics with Computer Application

Skills

Programming Language : Java, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, Spring Boot

Web Technologies: REST APIs, JSON, Responsive Web Design

Databases: MongoDB, MySQL, SQL

Tools & Platform : Git, GitHub, AWS (Basics)

Achievements

Full Stack Development Certification — Dec 2024 – Jan 2025

Completed certification covering HTML, CSS, JavaScript, React.js, Node.js, and Express.js.

Built full-stack web applications with REST APIs and database integration.

Practiced Git and GitHub for version control and collaboration.

NPTEL Certification – Cloud Computing & Distributed Systems — Jan – Mar 2025

Learned cloud architecture, virtualization, and distributed systems concepts.

Studied scalability, fault tolerance, and cloud service models (IaaS, PaaS, SaaS).
